## **DETAILED ACTION**

### ***Response to Amendment***

The applicant's amendment, received 5-30-2008, overcomes the examiner's rejection. Hence claims 1-2, 5-15, 21-22, 24, 26-34 and 39-40 are allowed while claims 3-4, 15-20, 23, 25 and 35-38 are cancelled.

1. The examiner notes that the independent claims recite a method that is performed by the receiver and transmitter (eg. base station and mobile as per the specification). Hence these method claims are interpreted as referring to a statutory class (eg. apparatus/machine) which makes them compliant with USC 101 (reference the John Love memo, dated 5/08, which outlines the need for method claims to refer to a statutory class).

- Should the applicant wish to amend the claims to further define or clarify the actual apparatus(es) performing the method, they can contact the examiner and/or provide a 312 amendment.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

1. The applicant has amended as per the recommendations of the examiner.

Hence he believes the claims to be novel over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**Claim 5 refers to cancelled claim 3.**

The application has been amended as follows:

"...5. The method of claim 3 2 further including:....."
